

KLOVE is played at my place of business each day. We receive numerous compliments on playing this christian radio station. I feel this station has impacted many people with christian values and information. The effects could be damaging if KLOVE were to be displaced by an LPFM broadcaster providing other programming. It is nice to have this KLOVE christian radio station to promote positive thinking and actions in my community. I believe this service is of great public interest because of the positive and encouraging promotion it offers listeners. It sets a christian, positive environment for our customers and their families. Please do not let KLOVE be discontinued!!!!
